PUBLIC HEARING:

After reviewing the Department of Natural Resources, Natural Resources Division Report and examining available information on file with the application, the Examiner conducted a public hearing on the subject as follows:

Participants at the public hearing and the exhibits offered and entered are listed in the attached minutes. A verbatim recording of the hearing is available in the office of the King County Hearing Examiner.

2. The acreages indicated in Finding No. 1, above, are indicated in the Division's May 7, 1996 memorandum entered in this hearing record as Exhibit No. 19. This final recommendation from the Division, with which the applicant agrees, revises the acreages indicated in the Division's Preliminary Report to the Examiner dated April 15, 1996 (Exhibit No. 4). Further, these figures differ from the Division's revision to that report entered into the verbatim record of that same date. Exhibit No. 19, reflected by the Finding No. 1 summary, above, indicates the Division's final recommendation.
3. Except as modified herein, the facts set forth in the King County Department of Natural Resources, Natural Resources Division Preliminary Report to the King County Hearing Examiner for the April 15, 1996, 1996 public hearing are found to be correct and are incorporated herein by this reference. Copies of the said Report will be attached to the copies of this Report submitted to the King County Council.

CONCLUSIONS:

1. The requested timber and open space applications for current use taxation should be approved as follows:
 - a. 7.89 acres of timber; and
 - b. 10.96 acres of open space.

Approval of these timber and open space acreages, pursuant to the Public Benefit Rating System adopted by King County Ordinance No. 10511, would be consistent with the purposes and intent of King County to maintain, preserve, conserve and otherwise continue in existence adequate open space lands and to assure the use and enjoyment of natural resources and scenic beauty for the economic and social well-being of King County and its citizens.

2. Timely application has been made to King County for the current use valuation of the subject property to begin in 1997. Notice of said application was given in the manner required by law.
3. The subject property contains priority open space resources and is entitled to bonus points pursuant to the King County

Public Benefit Rating System, which justify a total award of 20 points. The resulting current use value is 30% of market value for 10.96 acres of the subject property.

4. The property proposed for current use valuation meets the requirements of KCC 20.36.110, and the subject application for current use taxation as timber land should be approved.

RECOMMENDATION:

- A. APPROVE that portion of the HASAN EREZYILMAZ application for current use classification of 7.89 acres of timber land, subject to the attached conditions of approval and subject to compliance the approved Forest Stewardship Plan.
- B. APPROVE the request of HASAN EREZYILMAZ for current use valuation of 30% of market value for 10.96 acres of the subject property, subject to the following conditions:
 1. The applicant shall provide to the King County Assessor a legal description, or adequate information to enable the Assessor to develop a legal description, of the improved portion of the property which shall remain assessed at 100% of market value, and the portion of the subject property (10.96 acres) which shall be assessed at its current use valuation.
 2. Current use valuation shall be subject to all terms and conditions of RCW 84.34 and King County Code Chapter 20.36, as the same may be amended from time to time, and all regulations and rules duly adopted to implement State law and County ordinances pertaining to current use valuation.
 3. Within thirty (30) days of the date of approval of this application by the King County Council, the applicant shall sign an agreement which accepts the conditions of approval set forth herein and meets the requirements of WAC 458-30-240. The following conditions shall be specifically set forth in the agreement:
 - (1) Failure of the owner to comply with these conditions shall be basis for removal, by King County, of the current use designation, in which case the land shall be subject to the penalty, tax, and interest provisions of RCW 84.34 and assessed at true and fair value. The County Assessor and the Natural Resources Division may reevaluate the property to determine whether removal of the open space designation is appropriate. Removal shall follow the process in RCW 84.34.108.
 - (2) Revisions to this agreement may only occur upon mutual written approval of the owner and granting authority.
 - (3) The open space classification for this land will continue as long as it is primarily devoted to and used for the purpose of protecting open space. Classification will be removed if dedication to this purpose ceases to exist. A change in circumstances which diminishes the extent of public benefit from that generally outlined in the Natural Resources Division Preliminary Report to the King County Hearing Examiner will be cause for

removal of the current use assessment classification. It is the owner's responsibility to notify the Assessor of a change in circumstance.

- (4) When a portion of the open space land is withdrawn or removed from the program, the Natural Resources Division and the Assessor shall reevaluate the remaining land to determine its continued qualification under the program. If the remaining portion meets the criteria for priority resources, it may continue under current use taxation.
- (5) Except as otherwise stated in this agreement, there shall be no alteration of the open space land or resources. **Any alteration may constitute a change of use and subject the property to the additional tax, interest, and penalty provisions of RCW 84.34.080.** "Alteration" means any human-induced action that adversely impacts the existing condition of the open space land or resources including but not limited to the following:
 - a. erecting structures;
 - b. grading;
 - c. filling;
 - d. dredging;
 - e. channelizing;
 - f. modifying land or hydrology for surface water management purposes;
 - g. cutting, pruning, limbing or topping, clearing, planting, introducing, relocating or removing vegetation, however, selective cutting may be permitted for firewood;
 - h. applying herbicides or pesticides or any hazardous or toxic substance;
 - i. discharging pollutants except stormwater;
 - j. paving, construction, application of gravel;
 - k. storing of equipment, household supplies, play equipment, or compost;
 - l. engaging in any other activity that adversely impacts the existing vegetation, hydrology, wildlife, wildlife habitat, or other open space resource.
 - m. (Walking, horseback riding, passive recreation or actions taken in conjunction with a resource restoration plan, or other similar activities are permitted.)
- (6) Subject to the conditions and restrictions set forth in Section 5, the following uses, activities and alterations are permitted, following receipt of written approval as set forth below:
 - a. In areas which have become infested by

noxious weeds, the owner shall submit a control and enhancement plan to the King County Natural Resources Division and local jurisdiction for approval prior to removing the weeds.

- b. In areas invaded by non-native invasive species, replacement with native species or other appropriate vegetation may be allowed subject to approval of an enhancement plan by the King County Natural Resources Division.
 - c. Trees posing a hazard to structures or major roads may be removed. Any trees removed must be replaced.
- (7) There shall be no motorized vehicle driving or parking allowed on the open space land with the exception of along driveways.
- (8) Grazing of livestock shall be prohibited on the open space land.

- a. Any residence on the property shall be served by a sewage disposal system which is maintained in an operating condition adequate to prevent the pollution of surface and ground waters.
- b. The subject property shall be managed in accordance with the Forest Management Plan during the term of the Open Space Taxation Agreement.
- c. Withdrawal from classification. When land has been classified under this chapter, it shall remain under such classification and shall not be applied to other use for at least ten years from the date of classification until and unless withdrawn from classification after notice of request for withdrawal shall be made by the owner. During any year after eight years of the initial ten-year classification period have elapsed, notice of request for withdrawal of all or a portion of the land may be given by the owner to the county assessor or assessors of the county or counties in which such land is situated. In the event that a portion of a parcel is removed from classification, the remaining portion must meet the same requirements as did the entire parcel when such land was originally granted classification pursuant to this chapter. Within seven days the county assessor shall transmit one copy of such notice to the legislative body which originally approved the application. The county assessor or assessors, as the case may be, shall when two years have elapsed following the date of receipt of such notice, withdraw such land from such classification and the land shall be subject to the additional tax due under RCW 84.34.108, Provided, That agreement to tax according to use shall not be considered to be a contract and can be abrogated at any time by the legislature in which event no additional tax or penalty shall be imposed.
- d. Exploration for oil, gas or other minerals shall not be considered a change in use of the property. The extraction of oil, gas or other minerals from the property shall be considered a change of use of the property, unless the property owner does not have an interest in the mineral rights of the property, and the structures, openings and activities involved in the extraction of minerals in no way diminish the open space and/or recreational characteristics of the property.
